

Toyota Conference

Sponsored by Toyota Motor Corporation

For contribution to the growth and advancement of emerging fundamental science and technology, the first Toyota Conference was organized in 1987 in celebration of the 50th anniversary of the TOYOTA MOTOR CORPORATION. Since then, the conference has been held every year, dealing with a broad range of subjects in different fields. This has always been an informal conference with a relaxed atmosphere which has provided the latest information on the state of the art in each field. Intensive discussions are created for an exchange of ideas among more than 60 leading researchers from all over the world.
